

VT Faculty

Get Your Personalized MyIP Widget

My IP @

VirginiaTech
available now

Virginia Tech professors are popular. Many people – including those from funding agencies and companies – search for you online. VTIP sees many of them follow the links they find to browse through your inventions in our online database.

Connecting to your inventions is now easier with a new tool, the MyIP widget:

If you insert MyIP in your webpage, visitors can click the widget and it will link to your inventions available for licensing – a great supplement to information about your research and publications!

If you would like to see what the result will look like, just run a search on your name at VTIP's Available Technologies website:

<http://www.vtip.org/availableTech/>

Your widget is personal to you and the search results are always current with an up-to-date list of your available inventions.

For current VT faculty member with at least one invention available for licensing on the VTIP website, you will receive your personalized widget by email in September.

The email will contain the HTML code for your MyIP widget which you can have your webmaster place wherever you would like in your webpage.

That is all it takes! If you have any questions, please contact VTIP by email at:

vtippatents@vtip.org

or call John Geikler at 443-9218.
